D. Impact in Future Years?

If no fiscal impact in first two years, indicate if there will be any impact in future years, and explain. Also, indicate any significant changes in fiscal impact beyond the first two years.(Use back side, if necessary.)
Part of the allocation will be used for salaries, wages, and benefits. These costs will increase as time goes on.

E. Identify Sections of the Bill That Will Generate the Additional Workload or Cost Increase

Additional kindergarten teachers, classrooms, supplies, etc. will be required for those schools desiring to offer extended-day kindergarten, unless the program is already being offered at district expense. In addition, lines 68-81 will increase the workload of employees at the Utah State Office of Education to implement those requirements.

F. Expenditure Impact Details (Ties to totals in Section C)

List and document methodology and/or assumptions used in determining need for workload and cost increase.

List number, type, and step ranges of personnel required, including benefits.

List details of other impacted expenditure categories as shown in Section C.

List additional space requirements and cost associated with requirements of this bill.

(USE ATTACHMENTS IF NECESSARY.)

For those districts that do not have this program already, there would be an increase in teachers' salaries, wages, and benefits. In addition, there would be a need for more classroom space and for more supplies. There could also be the need for alteration of information systems at the state, district, and school levels to meet the reporting requirements of this bill.

G. No Fiscal Impact or Will Not Require Additional Appropriations?

Specify why this bill will have no fiscal impact on your agency or institution.

Specify how you will reallocate workloads, resources, or funding sources to eliminate need for additional appropriations. (USE ATTACHMENTS IF NECESSARY.)

N/A

H. If Bill Carries It's Own Appropriation:

Indicate if the amount appropriated is adequate to meet the purposes of the bill.

Are there future additional costs anticipated beyond the appropriation in the bill?

Depending on the number of students that participate in the extended-day kindergarten, the appropriation may not be adequate especially if the funds need to be prorated.

I. Impact on Local Governments, Businesses, Associations, and Individuals

Specify requirements in the bill that drive the impact on local governments.

Indicate costs or savings that are **DIRECT and MEASURABLE**. If direct and measurable data are not available, are there areas that potentially could have a fiscal impact? (USE ATTACHMENT IF NECESSARY.)

Local School Districts/Charter Schools : Extended-day kindergarten will require additional space for at-capacity schools. Classroom space may already be available in some districts; at other districts costs for classroom facilities will be a significant stumbling block to implement this program. Additional teacher FTEs will have to be added as well. If the allocation needs to be prorated to the number of students participating in the program, district/charter schools may have to supplement the program with other funds.

Businesses and Associations :

Narrative Description of Bill : This bill establishes a voluntary extended-day kindergarten program. The bill establishes an allocation method for districts and charter schools that could be prorated depending on the number of students participating. This bill requires the State Board of Education to make certain reporting requirements.

This is a draft fiscal note response from the Utah State Office of Education (USOE) and may be revised in the future.

This fiscal note input draft does not imply endorsement of this bill by the State Board of Education or USOE.
